# L'ironie de Github

HAUMTalks #5
10 mars 2016
Romain Porte (@MicroJoe_)
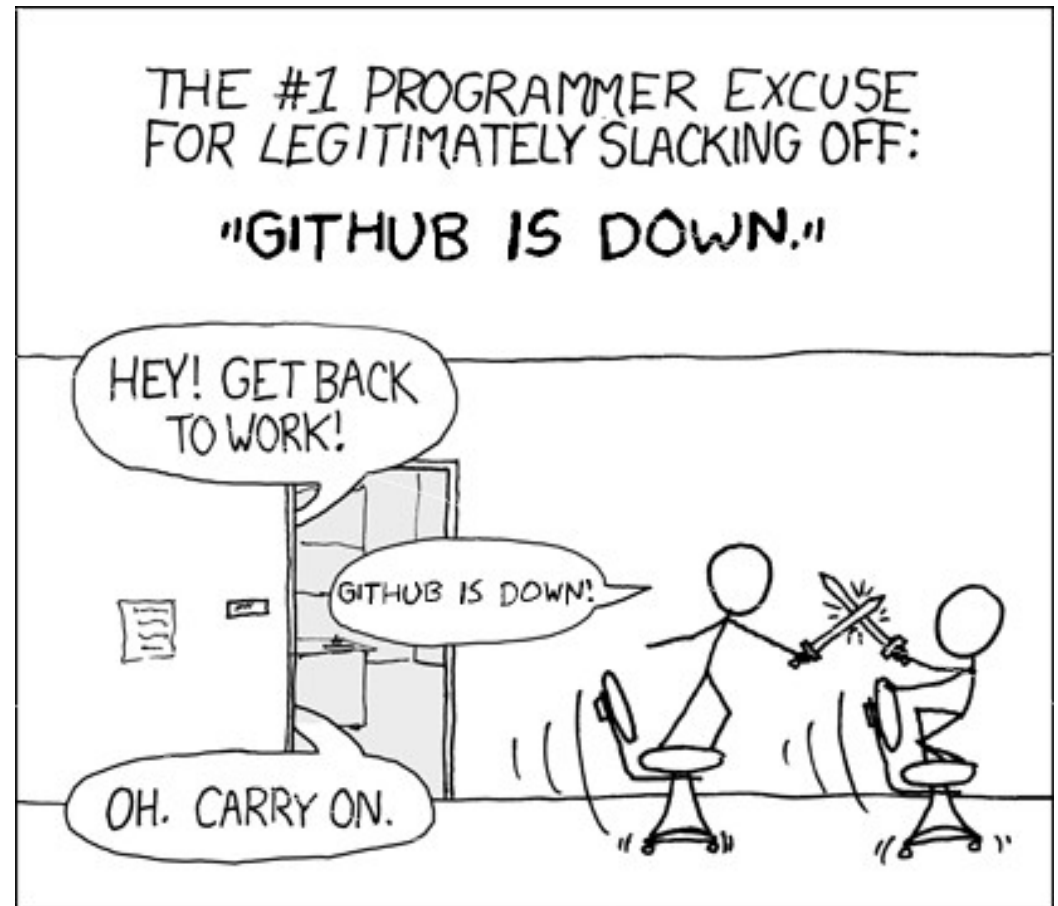

Git et Github

- Git
  - Opensource
  - Décentralisé
- GitHub
  - Propriétaire
  - Centralisé

Centralisé

- #Github is down ! (DDOS)

- Code chez chaque développeur

- Issues et PR sur Github

Propriétaire

- Pull requests

- Issues

- Commentaires

- Accessible par API REST… pour l'instant ?

- CPython n'utilise pas la partie propriétaire

Impossible à adapter

- Dear Github

- Développeurs open-source vs. Logiciel propriétaire

Coding social ?

- Effet de mode → isolation

- CV Github

- Sous-utilisation de Git

Démocratisation

- Utilisé
  - Pour n'importe quoi
  - N'importe comment
- Coûts augmentent pour l'entreprise

Modèle économique

- Venture capital
  - Mise en bourse
  - Rachat
- Made with <3 by ~~Github~~ Supercapitalism

Team

- Agile, mais ça c'était avant
- Grosse équipe
  - \> 100 personnes
  - Managers
